

EDUCATION

Seoul National University (SNU)

Master of Science in Cognitive Science

Bachelor of Science in Mechanical Engineering

Minor in Philosophy

Seoul, South Korea

2026 – Present

2021 – 2026

TOEFL iBT : 105 / 120

GPA : 3.76 / 4.00

PUBLICATIONS

The Limits of Your World Model Mean the Limits of Your Language Model: Embodied Reasoning through a Predictive Action Boundary

Jihun Moon*, Yumin Park*, Hogun Park*, Youngjae Yu (*equal contribution)

Under Review

Accepted 04/2026

RESEARCH EXPERIENCE

Physical Intelligence Lab, SNU

M.S. Student

Seoul, South Korea

04/2026 – Present

- **Embodied Reasoning with World Models:** Co-first-authored EGO, grounding a VLM's action selection in a Top-K action boundary predicted by a V-JEPA 2-based world model on egocentric video
- **Long-Term Egocentric World Models:** Investigating how world models should organize long-term experience, spanning event segmentation, temporal abstraction, and structured memory

Autonomous Robot Intelligence Laboratory, SNU

Undergraduate Researcher

Seoul, South Korea

05/2025 – 03/2026

EXTRACURRICULAR ACTIVITIES

Humanoid & Physical AI Club 'SHAPE'

Founding President

SNU

11/2025 – 07/2026

- **Organization Founding:** Established Seoul National University's first student organization dedicated to humanoid robotics and physical AI, and led it as founding president from launch
- **2026 Humanoid Challenge:** Led the club team's entry in the 2026 Humanoid Challenge, operating a humanoid platform with emphasis on autonomous task execution from natural language instructions
- **Club Management:** Ran recruitment, project planning, and team operations to build and sustain a multidisciplinary student research community

MILITARY SERVICE

Republic of Korea Army, Joint Security Area Battalion (JSA, United Nations Command)

Sergeant

Paju, South Korea

12/2021 – 06/2023

- Served at South Korea's northernmost front-line outpost, conducting surveillance and security operations near the North Korean border
